NEW FOR 2017

Introducing O'Sea® and Regalite® Firma! Our Firma line is our signature O'Sea® and Regalite® product line- but now, we've brought our technology to a new level. O'Sea® and Regalite® Firma was specially engineered for fabricators and installers who prefer a stiffer hand to their press polished window vinyl.

Regalite® Fenestra is our newest offering for the awning and restaurant enclosure markets! Fenestra 20 and 30 gauge meets fire specification FMVSS 302 and is suitable for signage, restaurant windows and patios, sunrooms, greenhouses, and many more applications.

Touting the same high-quality technology features as our standard line- optically clear, durable, and made start-to-finish in the USA- we're now introducing a new thickness never seen before on the market- 80 gauge O'Sea® and Regalite® press polished clear window vinyl.

O'Sea® & Regalite® Press Polished

by O'Sullivan Films Inc.

OPTICAL CLARITY • DURABILITY • VERSATILITY
MARINE • ENCLOSURE • AWNINGS • SIGNAGE • CONVERTIBLE TOPS • TENTS

Sunscreen, Jet Fuel + Bug Spray Resistant?	Optically Clear?	Highly Durable?	UV Resistant?	Scratch Resistant Coating?	RF Weldable?	Stiffer Hand?	Flame Retardant?
						 FIRMA	
						 FIRMA	 FENESTRA

O'Sea® and Regalite® FIRMA	
Tints	Clear
Gauges	.020", .030", .040"
<p>Introducing FIRMA- the newest addition to O'Sullivan Films' signature product line. Specifically formulated for those who desire a stiffer hand, FIRMA sheets are harder and less flexible than standard Regalite® and O'Sea®.</p>	

Regalite® FENESTRA	
Tints	Clear
Gauges	.020", .030"
<p>Great for patios, sunrooms, restaurant enclosures and signage. New Regalite® FENESTRA is the clearest choice for outdoor enclosure projects. FENESTRA meets CAL Title 19 Section 1237 (small scale) and FMVSS 302 and CA 117E flame standards.</p>
