

Library Colours

Above all else, our new colour palette is designed to inspire. Populated with the practical solutions your pursuits demand. You will undoubtedly notice themes, complements, and contrasts within each of the six collections. But there are no rules - pull from the palette as you see fit.

Each tab represents a stock colour. Contact your KYDEX® Thermoplastics representative for ordering details.

Constant

- Polo 32251
- The Cape 72941
- First Mate 42657
- Oil Skin 72936
- Black Watch 53259

KYDEX® Textures

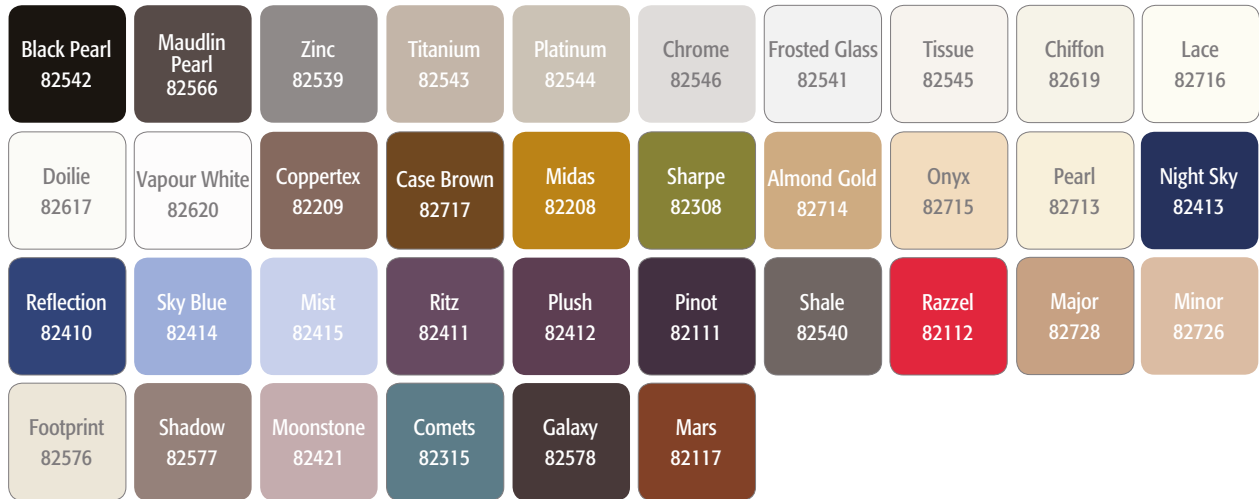

KYDEX® thermoplastics are offered in eight textures. Each texture presents its own unique opportunities and challenges. Textures are embossed into the sheet during the extrusion process, so available textures may be limited based on material grade, thickness, or width. Pressure forming with KYDEX® material offers limitless opportunities for part texture.
