

KYDEX® 110 Metallic fire-rated sheet

Introduction

Super tough, durable KYDEX® 110, a proprietary alloy sheet, brings new dimensions to thermoformers in: formability, rigidity, breakage resistance, chemical resistance and fire retardancy.

General Information

This high performance thermoplastic sheet is available in an assorted number of metallic colours. It is Underwriters Laboratories, Inc® recognized for UL Std 94 V-0, 5V.

Suggested Applications

- Aircraft Interiors
- Kiosk Housings
- Medical Housings
- Miscellaneous Applications
- Exhibits and Displays
- Store Fixtures
- Office Furniture

Features

- for deep or hard to form parts where good finished detail is required
- more rigid than most thermoplastics so parts will deform less when loaded
- meets highest standard for chemical resistance for thermoplastic materials
- recognized by Underwriter's Laboratories, Inc® for Std 94 V-0, 5V in all thicknesses and colors
- excellent forming properties, uniform wall thicknesses
- easy machining and fabricating using conventional methods and equipment
- passes FFA Vertical Burn Testing according to FAR 25.853 (a) (i)+(ii)

Environmental and Safety Considerations

SEKISUI SPI is committed to ensuring that its products can be manufactured, transported, stored, used, disposed and recycled with an appropriate regard for safety, health and environmental protection.
